

# Strategic Plan 2024-29

Supporting the community *at their points of need.*

## *Vision, our hope.*

A vibrant and thriving community.

## *Purpose, our why.*

To support the community at their points of need through diverse and relevant services.

## *Role, our work.*

To deliver community services that meet the needs of communities we work in.

We are a **leader and advocate** that influences funding and investment into local services, that elevates community voice and celebrates the places we support.

We act as a **partner** within the community, working with and alongside other organisations, local leaders and volunteers to support services, and bring local experience and expertise into our organisation and work.

## **Outcomes,** our impact

- 1** A **community supported** at their points of need. This means:

Responsive and agile services, that listen and evolve with the community around them. Place-based services that focus on what value is needed, not just the funding on offer. Collaborations that enhance our service and that deliver better outcomes for the community.

- 2** A **workforce empowered** to deliver excellence. This means:

An organisation where staff and volunteers have agency to deliver at their best. Keeping pace with our growth with the support and tools needed for success. A workplace where people want to be, aspire to grow within and hold shared values with.

- 3** A strong **organisation** influencing outcomes, This means:

A diverse revenue base that enables CORE to make its own choices based on community need. A profile and position that elevates the communities voice, that gets us into the relevant discussions. Reaching more people in the communities we are in today and those we aspire to work in the future.

## **Strategies,** our focus

- 1.1 Invest in outcomes.
- 1.2 Focussed advocacy.
- 1.3 Connected system.

- 2.1 Workforce agility.
- 2.2 Local staff and volunteers.
- 2.3 Aligned values.

- 3.1 Deliver on commitments.
- 3.2 Sector leadership.
- 3.3 Service growth.

## **Enablers,** our tools

Collaboration based on shared value.

Equipped and supported people.

Financial agility.
